21 May 1952

MEMORANDUM FOR: Assistant to the Director of Training

SUBJECT : Mobile Audio-Visual Devices Progress Report #3

25X1 1. On 12 May 1952 [] of Procurement, [] 25X1
O/Training, [] and myself met to 25X1
discuss a revised proposal to be submitted by [] 25X1

25X1 4. [] does know our needs for a pilot model and has 25X1
agreed to call me to submit a proposal for the pilot model by 16 or 19 25X1
May 1952. As yet, I have not had any word from []

25X1 5. In the meantime, I have checked other sources I felt capable
of fulfilling our specific needs. I suggest that it is possible for TAB
within the time limit specified by the Assistant to the Director of
Training, to develop a pilot model with outside technical assistance
without waiting for a specific proposal from [] This model, 25X1
once developed, may be placed later on a competitive production bid or
produced by TAB under the same arrangement used for the pilot model
production. The details on this proposal are outlined in Attachment A.

ATTACHMENT A

1. With the approval of Chief of Procurement, the first step is for TAB to be authorized to purchase the component items of the pilot model for cash. These can be purchased locally in a days time.

25X1

2. Second, TAB can obtain the services of an [redacted] (who services our present audio and visual equipment) for the purpose of constructing the pilot model. This kind of service is available at \$45. per day. Any additional help can be furnished by TAB.

3. My estimate is that the components can be bought for about \$400. and the pilot model constructed for \$45 or with one day's labor.

4. After approval of the pilot model, subsequent models can be made at a rate of 3 or 4 per day. An alternate plan would be to place production of the model on a competitive bid.
